

Engineered for printing with premium UV inks.

PRODUCT FEATURES

- Applications Utilizing UV Inks: Perfect for all uses involving UV inks.
- Chemical Resistance: The EPDM surface compound exhibits exceptional resistance to UV paints and harsh cleaning solutions.
- Compressible Layer Durability: Engineered to endure the rigorous requirements of UV printing.

TECHNICAL SPECIFICATIONS

Thickness	1.96 mm
Color	red
Ink Compatibility	UV
Surface Hardness	76 Shore A
Elongation	< 1.2%
