

Engineered to endure the rigors of UV printing

PRODUCT FEATURES

It delivers superior performance in metallography and printing with UV inks, guaranteeing outstanding results and high-quality prints. Composed of EPDM, it provides exceptional chemical and mechanical resistance, guaranteeing durability and reliability, even under the most challenging conditions.

TECHNICAL SPECIFICATION

Thickness	1,96 mm
Color	red
Ink Compatibility	UV
Hardness	75 ± 3 Shore A
Elongation	< 0,70%
Face	EPDM
